Hey man. Just linked up with another job. I was gonna see if I could help you out.

If I can put solar panels on your home. For FREE. Lower your energy bill up too 100 monthly, with no more power outages... ever.

Plus on top of that, every referral you give me from a homeowner I'm gonna pay you 500.

All I need to do is get a picture of your energy bill. No catch, no gimmicks. 100% legit.
